

H05 hinge

12-13mm & 17-19mm & 19-21mm

Includes fixings for wall and fascia fix

Panel thickness	ANODISED	PPC
12-13mm	H05213A	H05213P
17-19mm	H05219A	H05219P
19-21mm	H05220A	H05220P

The hinge fall position can be adjusted by removing and rotating the nylon hinge risers. Note: Approx. 3.5mm rise and fall travel.

1. Dismantle the hinge by removing the mushroom head screw.
2. Adjust the nylon Cam to give the correct rise/fall for the hinge. Supplied open as default.
3. Predrill the door and fascia's using the Below drawing as a reference.
4. Fit the top half of the hinge (pin pointing down) to the door.
5. Fit the bottom half (no pin) to the fascia.
6. Lift the door into position and drop over the lower hinge half.
7. Refit the mushroom screw and check operation.
